

Teaching Geography, 2008, 320 pages, Philip Gersmehl, 1593857497, 9781593857493, Guilford Press, 2008

Now in a revised and expanded second edition, this book and accompanying CD-ROM present a complete conceptual framework and numerous hands-on ideas for effective K-12 geography instruction. The focus is on planning instruction that helps students develop spatial-thinking skills while learning about the land, climate, economy, and culture of places around the world. Updated throughout in response to teacher feedback, the second edition features an important new chapter on spatial cognition. Nearly 100 engaging activities are provided in reproducible transparency masters. Grounded in national and state standards, this is an ideal preservice text or professional development resource.
